BESCHNIDT

Genuine quality is experienced by your senses. That’s why we have created a space for the things that are important to us: Orientating ourselves to the wishes of our patients beyond our technical expertise!

In this sense we create an experience for our patients that, in many ways, is much more than a visit to the dentist. Our top priority in Dr. Beschnidt’s private practice is to make the often unpleasant thought of going to the dentist the exact opposite, a warm, inviting experience.

Our private dental practice can be found in the Villa Stephanie, a historic building that is part of the Brenner’s Park-Hotel & Spa in Baden-Baden. The direct connection to one of the "Leading Hotels of the World" means that in addition to the close proximity, amenities and comforts of an exceptional standard are on offer to our patients.
